

## Temporary Field Trip Educator Job Description

Field Trip Educators combine science education with hands-on interactions to teach students about tropical butterflies and marine life through the lens of conservation. This temporary job provides an excellent opportunity to gain unique experience in the fields of environmental education, informal science, biology and interpretation.

### **Job Responsibilities:**

Temporary Field Trip Educators are responsible for:

- Working directly with educator in organizing and guiding field trips for 60+ schools
- Greeting and interacting with field trip students, teachers and chaperones with enthusiasm
- Acting as a tour guide for visiting field trips from South Dakota, Iowa, Nebraska and Minnesota
- Being trained in exhibit interpretation to provide educational discussions throughout field trips
- Providing structure during field trips to keep groups on task and on time

### **Work Schedule:**

We are currently looking for someone to work part-time Monday through Friday. The position would be roughly 30 hours per week with the possibility of hours increasing or decreasing due to field trip schedule. Our shifts typically go from 8:30am-3:30pm but can be flexible with hours and shifts if we find the right fit for the position.

The position is hourly, with varying part-time hours. Pay is \$9.50 per hour.

### **To Apply:**

Submit completed application and/or resume to Jen, Guest Experience Director at [jennifer@sdaqarium.org](mailto:jennifer@sdaqarium.org)
